Zonta's vision

Zonta International envisions a world in which women's rights are recognized as human rights and every woman is able to achieve her full potential.

In such a world, women has access to all resources and are represented in decision making positions on an equal basis with men.

In such a world, no woman lives in fear of violence.

- The Commission on the Status of Women (CSW) started in 1946 and is a commission of the Economic and Social Council (ECOSOC). Zonta has consultative status in ECOSOC.
- CSW is dedicated exclusively to promote gender equality and the advancement of women.
- 12.-23. March the states, UN entities and non-governmental organizations (NGOs) are gathered in CSW.

- In 2018 the priority theme is: «... **gender equality and the empowerment of rural women and girls.**»
- The review theme is: **“Participation in and access of women to the media, information and communications technologies”**.

The NGOs are important for critical evaluation of progress or lack of progress. Stronger obligation for the nations is necessary to fulfill the SDGs and the Beijing Platform for Actions from the 4th UN Women Conference.
